

New Start for Student Veterans supports current and incoming CSU student veterans, helping them achieve success as college students and ultimately in the career area of their choice. New Start provides individualized academic guidance and mentoring including support in addressing memory challenges, organizational difficulties, and the many reintegration issues that veterans may be experiencing as they pursue a college degree.

NEW START *for* STUDENT VETERANS

How do I know if New Start is right for me?

Services help students who want to:

- Ease adjustment from military life to student life.
- Be more organized.
- Improve academic effectiveness.
- Implement tools and strategies that compensate for memory or concentration challenges.
- Increase physical access.

Individualized, campus and community-based supports take a holistic approach.

Academic & career path planning, self-advocacy, home life, community access, and recreation are considered.

What type of support do students receive?

- **Assessment** to identify specific strengths, interest, challenges, needs, and goals.
- **1:1 support** of a Student Veteran Coordinator to facilitate:
 - **Adjustment to academic/campus culture** for maximizing success in a new environment.
 - **Implementation of** strategies and tools that compensate for memory, concentration and physical challenges.
 - **Acquisition of** adaptive equipment and assistive technologies for enhanced mobility, academic access and success.
 - **Stress management and resilience** strategies and resources.
 - Use of **critical academic skills** such as setting, planning and achieving goals; identification of challenges and needs; time management; effective decision-making.
 - **Connection** to campus and community resources.

*The New Start for Student Veterans program provides services to incoming and current CSU student veterans at **no charge**.*
